The Greatest Gift by Hillary Krippaehne-Fernandez

Christmas is the sweetest time of the year, but it can also be the most stressful season, too. Between the holiday get togethers, white elephant parties, events at church, buying presents for neighbors, family and friends... The list never ends with things to do. The reason for the season can get lost in the middle of all the hustle and bustle.

How do you feel about gifts?

There are several different love languages, and one of them is giving and receiving gifts. It is a way people feel and show love to one another. While gifting can become commercialized, especially this time of year, it can also be an opportunity to share about the love of the Lord and tell others about the greatest gift in the world: God sent His one and only Son Jesus here to save you from your sins. (John 3:16)

03

How can you make the gifts you give more meaningful?

Pray and ask the Lord to help you purchase items people will actually use or need, especially gifts that are healthier and less toxic or help people in their faith and walk with the Lord.

How can you give gifts that glorify God?

"For God so loved the world that he gave his one and only Son, that whoever believes in him shall not perish but have eternal life."

John 3:16

Who can you bless with a special gift this year? Pray and ask the Lord to help you discern who could use some extra encouragement and love through a present.

PRINTABLE PRINTABLE CHRISTMAS JOURNAL/PLANNER

Amanda @journalingandgrace

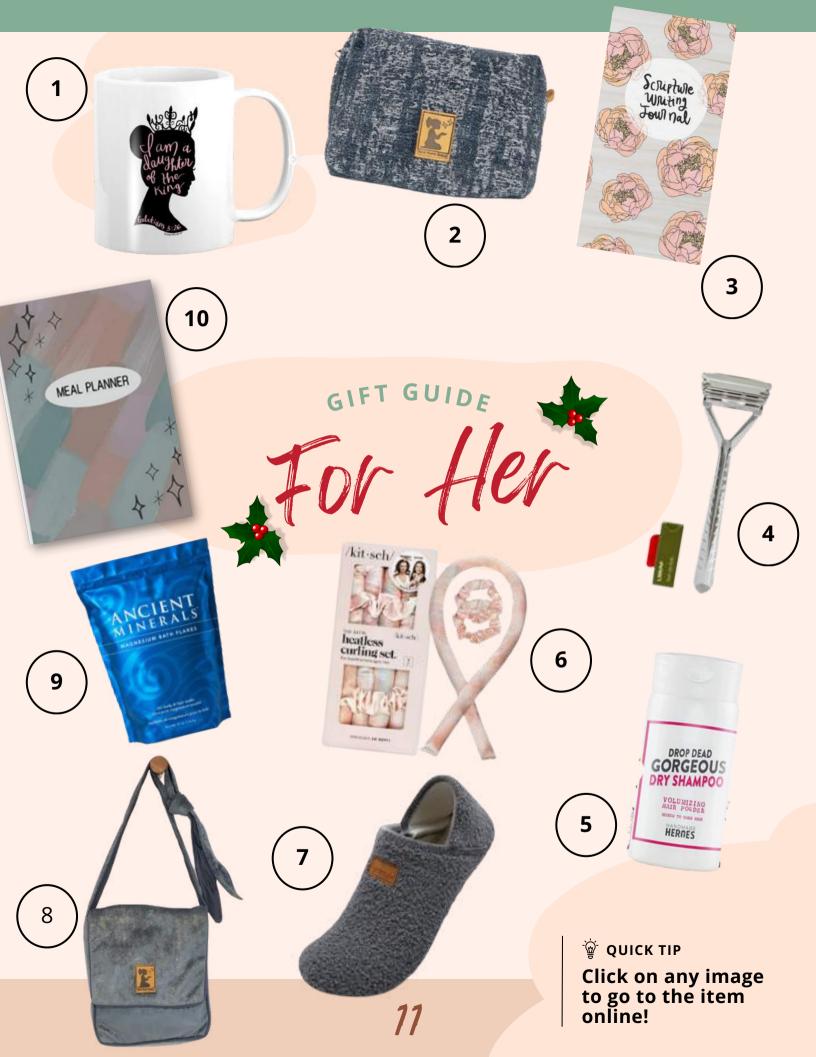

I am loving this online course about GRATITUDE. I am so thankful for this community and the people who go above and beyond to help us along our journey with Christ. Hillary is one of those amazing people! Thank you girl, for the course and a guide to help me focus on being grateful not just for a season, but all year long. The videos are jam packed with personal testimony, heartfelt stories, printables and ways to be creative on your own! I hope you enjoy this journaling course as much as I have!

Jumalice @his.word.in.me

A few years back I remember watching a Creative Faith video where Hillary shared her testimony on how she started a prayer and gratitude journal while living in the Dominican Republic. It inspired me to start one, and it has changed my life. This course is a great tool to help you understand gratitude journaling and how to keep an attitude of gratitude, from using a simple pen and notebook, to using all of the things. No matter the circumstances you are going through, there is always something to be grateful for.
